

ADVIZOR Solutions® Inc. Announces Commitment to Mobile Devices

CHICAGO, IL – July 27, 2011. Data Discovery and Analysis Software provider [ADVIZOR Solutions, Inc.](#) has been changing the way its customers work with their data, and has become a leader in the Business Intelligence community. ADVIZOR offers unique Data Analysis and interactive visualization capabilities which are easy to use and provide powerful results.

As part of the movement to Agile Business Intelligence (Agile BI), ADVIZOR Solutions is announcing its commitment to support mobile devices including Android and Apple iPad tablet computers.

"The Agile BI movement involves access 'anywhere and anytime', and requires support of all client and web-based computing platforms. Tablet computers provide a great platform for visual reporting and analysis", says Doug Cogswell, President & CEO of ADVIZOR Solutions. "Native capability for Android and iPad is currently in development and will be released this fall".

About [ADVIZOR Solutions® , Inc.](#)

ADVIZOR [Data Discovery and Analysis software](#) enables people to make better and faster fact-based decisions from their business data. Built on patented visualization and in-memory-data-management software from Bell Labs and best-of-breed predictive analytics from KXEN, ADVIZOR empowers business people to understand and analyze information without relying on others to prepare or interpret the results. ADVIZOR enables this through:

- Simple and clear visual display;
- Easy ad-hoc interaction and analysis with a mouse;
- Flexible thick and thin client deployments; and
- Tight integration with common databases and office tools

ADVIZOR is world-class in empowering people to display, analyze, and share their business information.
